

WCHS Diversity, Equity, and Inclusion (DEI) Committee's mission is to have a WCHS program that aligns with the goals of National PTA and MCCPTA of inclusive education by ensuring our school, classrooms, programs, and policies are designed in a way that allow all students to actively participate, learn, and thrive.

We will build a broad coalition of community members to leverage our position, data, research, as well as the voices and lived experiences of our students to: advocate for an equitable and sufficient allocation of resources by MCPS as well as WCHS; meet student academic and social-emotional needs; and track and evaluate school effectiveness. The DEI Committee will work with WCHS as well as MCPS and national education organizations to ensure accountability, transparency, and continuous improvement related to diversity, equity and inclusion policies, initiatives, procedures, and programs.

As this is a new committee at WCHS, we seek members and support from parents, students, and teachers. We will develop the mission and goals of this committee collectively to achieve: educational equity; positive outcomes for all students; access and inclusion; equitable resource distribution and academic support; multiple opportunities to learn; shared responsibility; and accountability.

Thank you,
Anupam Verma
Chairperson
WCHS Diversity, Equity, and Inclusion (DEI) Committee
